

ANDO™ | Hinged Door Lock

Hinged Door Lock

Key Features

- A clean compact lever handle with up to four point locking. Turning the key activates locking rods at top and bottom of the door. Available in 316-grade stainless steel and painted finish.
- Single or multi-point locking options.
- Stainless steel furniture option.
- Can be colour matched.

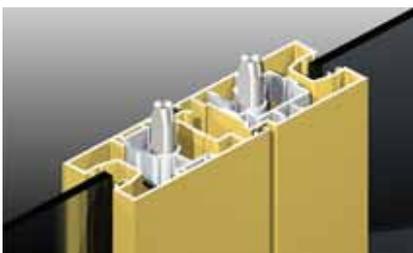

lever furniture is laid back to clear door stops. The furniture is available in a range of standard and special powder coated colours plus 316 grade stainless steel.

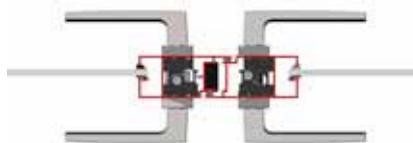

ANDO™ door locks come standard with turn snib keys.

The dummy lock (keeper stile lock) can be operated from inside, turning the handle will retract the shoot bolts top and bottom.

The image above shows the shoot bolts on non-thermal commercial doors fitted with multi-point locks.

For alternative hinged door furniture options consider ICON™ or MIRO™.
